(54) REMOTE CONTROLLER AND REMOTE CONTROL SYSTEM

(57)Abstract:
PROBLEM TO BE SOLVED: To select a menu only by the reference to a picture of a remote controller and to control display contents of a display device by hanging a video or menu picture in the same timing as a display device picture by a control signal.
SOLUTION: A separating part 41 divides inputted interactive content information into video information 31, interactive control information 32 and internet information. A menu program executing part 42 inputs the interactive control information from the part 41, executes a menu program set in a remote controller 20 by the information and when there is user' entry according to a menu program that outputs or executes menu information which is for being shown on a screen and a menu a selected, it outputs the menu information. That is, when menu selection comes externally, a control signal that corresponds to the selected menu is outputted to the display device and a video or a menu picture is changed in the same timing as the screen of the display device.
